

## Product Profile: XANGO 3SIXTY5™ Dietary Supplement with Active Defense Complex

In October 2010, leading global nutrition company XANGO launched XANGO 3SIXTY5™ dietary supplement with Active Defense Complex to shield the body from harmful microorganisms, environmental impurities and oxidative stresses.\*

### About Active Defense Complex

Traditional multi-vitamins and nutritional supplements help maintain day-to-day health but may struggle to prevent seasonal downturns, leaving the body vulnerable in moments of need. XANGO 3SIXTY5 Active Defense Complex goes further in protecting the body thanks to a natural, optimized blend of essential nutrients.

XANGO 3SIXTY5's Active Defense Complex consists of a variety of healthy compounds: bioflavonoids, resveratrol, tocotrienols and a proprietary polysaccharide called Primactive™.

**Beyond Active Defense Complex, each serving of XANGO 3SIXTY5 also provides a full spectrum of vitamins and minerals for overall wellness, benefiting consumers by:**

- Helping your body actively protect itself from occasional downturns
- Supporting health energy and cardiovascular health
- Providing powerful antioxidant support and cellular protection
- Supporting bone and joint health

In addition, XANGO taps technology to **chelate** the minerals in XANGO 3SIXTY5. This is an important step for delivering nutrients in a form that is readily absorbed by the body, in order to help consumers get the most out of each ingredient.
