

XANGO 3SIXTY5™ Kids

Supporting Your Kids' Health

XANGO 3SIXTY5 Kids is the first product to combine a full vitamin & mineral complex with the brain support of DHA and immunity-boosting action of Primactive™ into a single, safe and naturally flavored children's supplement. Now your children can get the brain support, bone building and eye health they need, plus a boost to their immune system so they can stay actively adventurous all year long.

While your little ones are busy being little builders, gatherers and artists in the outside world, their bodies are undergoing the same thing on the inside as they grow in leaps and bounds. Unfortunately, their appetite for good food will never mirror their appetite for creative outlets, and the pickier kids get about the foods they eat, the harder it is to make sure they're getting the nutrients they need.

Each package of 3SIXTY5 Kids includes two best-friend formulas—**Cherry-Mangosteen Builders** and **Pineapple-Durian Guardians**—allowing parents to safely customize doses for every stage of their children's lives. It's the only such product to package each one of its daily doses in a deliciously flavored fusion of the fruits of Southeast Asia. And because it's free of allergens, gluten, dairy, gelatin, GMOs, artificial flavors and sweeteners, your children will have everything they need—and nothing they don't—so they can focus on just being a kid.

Why 3SIXTY5 Kids?

Kids' nutrition is at the heart of their healthy development and parents want to know that their kids are getting the nutrients that they need to grow and thrive. Recent statistics show why your kids' nutritional needs should be in the forefront of your mind. The National Health and Nutrition Examination Survey found that many U.S. children don't get enough vitamins A, C or E, calcium or magnesium from food. Nutritional deficiencies can impact your kid's wellbeing emotionally, physically, mentally academically and even socially.

Don't let your growing little ones miss out on the nutritional support packed into our naturally sweetened XANGO 3SIXTY5 Kids chews:

- 21 essential vitamins & minerals help support healthy growth and development.*
- B vitamins and those amazing antioxidants—vitamins A, C and E—provide focused vision support.*
- Our unique vitamin and chelated-mineral blend offers unbeatable building of strong healthy bones and those all-important adult teeth!*
- Primactive™ actively helps support the immune system, even during its busy season.*
- DHA/EPA are omega 3 fatty acids that keep the imagination station running!*
