

Product Profile: eleviv™ Natural, Youthful Vigor

Eleviv™, the newest all-natural dietary supplement from XANGO, LLC, aims to restore your body's balance. This new innovative product is designed to complement XANGO® Juice to support natural vigor, leading you to a path of mental and physical well being. Eleviv features a proprietary and research-proven blend of four ingredients, featuring *Eurycoma longifolia* a unique botanical active revered as the “king of traditional medicine” in Southeast Asia for centuries. Additionally, the eleviv dietary supplement combines the power of *Eurycoma longifolia* with citrus peel extract, green tea extract, and pharmaceutical-grade L-Theanine, resulting in balance, harmony, awareness and youthful energy.

Active ingredients in eleviv consist of:

- *Eurycoma longifolia* extract
 - A traditional herb used in Southeast Asia as a remedy for various conditions and to restore balance in life – chi.
 - Research* shows *Eurycoma longifolia* helps balance the body to restore youthful vigor.
- Citrus peel (*Citrus sinensis*) extract
 - Features higher flavonoid content compared to other botanicals such as licorice and soy isoflavones.
 - Research* shows citrus peel helps balance HSD (11-beta Hydroxysteroid Dehydrogenase-1) hormones to help reduce intracellular cortisol and reduce abdominal fat storage.
- L-Theanine
 - Pharmaceutical-grade L-Theanine helps increase the body's sensitivity to cortisol.
- Green tea (*Camellia sinensis*) extract
 - Provides a balanced blend of antioxidants including polyphenols, catechins and Epigallocatechin gallate (EGCG).

Eleviv is recommended as a daily supplement, along with XANGO® Juice, to achieve physical health and well being for your mind – the perfect state of wellness you've always desired. Eleviv comes in capsule-form, lightweight (300 mg), green vegetable capsules made from chlorophyll with a recommend dosage of 2 (two) capsules daily with a meal. Eleviv is intended for ADULT (18 and older) use only. As with any dietary supplement, eleviv is not recommended for pregnant or lactating women. If you have any medical condition or are taking medications, consult with a health care professional prior to use.
