

## Product Profile: GLIMPSE® *Topical Skin Nutrition*

Glimpse® Topical Skin Nutrition by XANGO is the first personal care brand to bring mangosteen topical nutrition to a global market. Glimpse is available in two product systems – one providing nutrition for normal to dry skin and the other designed for normal to combination skin. The innovative personal care brand features three exclusive, xanthone-rich ingredients from the mangosteen delivered through a proprietary BioActive X<sup>3</sup> Complex™ that is free of harsh chemicals and utilizes green chemistry technology.

Glimpse intuitively self-adjusts to address the complex needs of a person's skin. The formulas in Glimpse employ a wide range of actives that target the skin with powerful nutrients. Glimpse is formulated for men and women of all ages and ethnicities.

### What Glimpse Can Do:

- Help reinforce the skin's natural defenses
- Promote luminous glow and younger-looking skin
- Reveal a clearer, brighter and more radiant complexion
- Help stimulate skin cells assisting natural collagen production
- Relieve the appearance of redness and inflammation
- Help maintain/enhance skin's youthful firmness/elasticity
- Defend against aging and safeguard the skin under various environmental stressors

### Glimpse Systems:

Glimpse features two basic systems that include a Cleanser, Toner, Serum and Moisturizer

- System I (Normal to Dry Skin) features a simple four-step regimen through a performance-focused blend of botanical ingredients and oils that nourish and provide moisture barriers for the skin while minimizing the visible signs of environmental aging.
- System II (Normal to Combination Skin) features a simple four-step regimen with botanical performance ingredients that provide the nutrients to calm and soothe overactive skin, gently refine skin tones and bring healthy, luminous complexion.
- The Glimpse Complete System (All Skin Types) features all six Glimpse skin care formulas and addresses the skin's complex needs by providing comprehensive skin nutrition. With daily use, BioActive X<sup>3</sup> Complex soothes and calms the skin, promotes natural luminosity and protects the skin against oxidizing effects of free radicals.

Available through a network of 1 million independent distributors, as well as online, Glimpse is competitively priced. Either Glimpse System I or II retails for \$200, with significant savings for distributors who purchase it wholesale. The Glimpse Complete System retails for \$270.

Simple and easy to use, Glimpse cleansers feature tube dispensing while all other products offer a control pump that provides just the right amount with each application, going on smoothly without leaving behind messy residue on the container.

### **BioActive X<sup>3</sup> Complex Xanthone-rich Ingredients:**

- Mangosteen pericarp oil: Derived through a unique fermentation process using a botanical enzyme, the delicate pericarp oil offers a host of vital phytonutrients that soothe and calm the signs of inflammation and stimulate collagen production, resulting in more luminous skin.
- Mangosteen polymeric complex: The polymeric complex forms a chain of continuous xanthenes that safeguards the skin from environmental stressors, while revealing a clearer, more radiant complexion. It contains 30 times more antioxidant potency than green tea, according to Japanese *in vitro* studies.
- Mangosteen acidic complex: Combining the finest elements from the mangosteen fruit, the acidic complex clears impurities and reinforces the skin's natural defenses, resulting in fresher, healthier looking skin.

### **Other Active Ingredients That Promote Performance:**

- Mangosteen Infused Water: Enhances the ingredient activity within BioActive X<sup>3</sup> Complex
- Microalgae: Safeguards skin from environmental stressors
- Aloe: Supports healthy skin tissues while soothing the skin
- Meadowfoam Seed Oil: Known for its ability to protect the skin while hydrating
- Squalane: Helps reinforce the skin's natural defense against free radical damage – derived from olives
- D-Gamma Tocopherol: Naturally-derived Vitamin E safeguards skin from free radicals generated by environmental aggressors
- Shea Butter: Helps stimulate cells to improve skin's tone and texture

### **The Glimpse Green Chemistry and Approach:**

Glimpse is free of harsh chemicals and formulated with state-of-the-art green chemistry technology that protects both the consumer and the environment.

- Glimpse uses only the finest botanical ingredients that are nutrient-rich and free of harsh chemicals.
- Cold processing preserves the natural potency of the phytonutrients found in the mangosteen and other active ingredients while minimizing the carbon footprint of the Glimpse manufacturing process.
- Glimpse goes on smoothly and absorbs quickly without the oily residue or harmful petrochemicals often found in many personal care products.
- Glimpse uses only clean ingredients that do not mutate or harm any organisms downstream, protecting the environment we all live in.
- No animal testing has been done in the development of Glimpse.
- Glimpse is dermatologist-tested, hypoallergenic and fragrance-free.

### **Third Party Involvement and Acknowledgement:**

- XANGO signed the Compact for Safe Cosmetics, a coalition to protect consumer health by requiring health/beauty industries to phase out the use of chemicals linked to cancer, birth defects and other health problems, and replace them with safer alternatives.
- Glimpse is listed as a phthalates-free cosmetics company on ThinkBeforeYouPink.org, a project of Breast Cancer Action that encourages companies to have products free of chemicals known or strongly suspected of causing adverse health conditions.

- Five of the six current products in the Glimpse skincare line meet Natural Product Association certification standards, meaning 95 percent of the product contains all-natural plant-based ingredients. This designation is carried on Glimpse packaging.
