## THE MANGOSTEEN CATEGORY IS BORN

XANGO's dream began with an inspired dreamer named Joe Morton. While living in Southeast Asia, Joe was served a small, white fruit for dessert. It was sweet and absolutely unlike anything he had ever tasted. The fruit was called mangosteen and Joe fell in love with it.

In Asia, the mangosteen has been used for centuries as a traditional preparation, from topical applications to teas. So powerful that mangosteen was respectfully called the Queen of Fruits; today scientists refer to it as *Garcinia mangostana*. Whatever you call it, this rare and delicate prize is naturally full of biologically active compounds and phytonutrients.

As Joe dug a little deeper, he learned a lot more, and got others excited with him. Ultimately, with the boldness and passion, Joe and his five pioneering partners brought mangosteen to the world. They launched it in 2002, as XANGO® Juice. It's delicious; it created the first-of-its-kind mangosteen category; and it's the cornerstone of XANGO's constantly growing line of phenomenal wellness products like XANGO® Reserva.

## CATEGORY CREATORS ARE OPPORTUNITY MAKERS

We do things differently at XANGO. We create categories. XANGO Category Creators are highly differentiated products that naturally generate raving fans with exciting personal stories. These products are so distinct from all others that they have no direct competition. They stand alone in defining their product categories. That's pretty different. And different is good.
