

## **extend** your energy

You were full of life in your heyday. Your energy supply was seemingly endless, and understanding a boring old person's lifestyle was impossible. Anything you could think up, you could get up and tackle.

Powered by a carefree inner balance, unfamiliar with stress or negativity, you ran through your childhood tirelessly. Today Eleviv™ restores this youthful freedom to your generation.

Eleviv brings balance to the multifaceted and all-important sphere of vigor. Your vigor. So, breathe a sigh of relief and prepare to reclaim your long-lost power to get up and go.

## **brighten** your well-being

Whether it's an abrasive personality, a crowded room or an unexpected emergency, something wants to push your buttons. It will pick at your patience, weaken your goodwill and compromise your peace of mind.

If the little things that you used to shrug off are finding chinks in your armor and getting under your skin, let Eleviv rebuild your soothing barrier and help you regain control.

Support a healthy sense of self and garner a surplus of self-confidence. Use Eleviv to put the positive spin back on your perspective and make things right in your world.

## **fuel** your focus

Life packs a punch with its variety of problems, and it takes a sharp mind to navigate the gauntlet. While time dims the light of the mind, Eleviv helps bring back the brightness of your prime.

The staggering ability of a healthy intellect turns even the most daunting obstacles into interesting challenges.

That's the outlook that Eleviv offers, and the way life should be.

So beware when you're missing your moments of clarity and life has come to a standstill. Don't ride in the ruts—take the high road. Elevate your mind with Eleviv.

# feel great again with Eleviv

XanGo proudly introduces a new category-creating product designed to complement XanGo® Juice in supporting natural vigor, a scientific term that describes a balanced state of physical, mental and emotional well-being. Using a powerful patent-pending formula, Eleviv™ dietary supplement provides sustained physical energy, mental acuity and emotional well-being.\* And the best part is that it does so naturally. Once you try it, you may be tempted to term it the “feel great” supplement.

## measurable results

A person’s “vigor score” can actually be measured through our scientifically validated “Profile of Mood States” (POMS) survey. Hundreds of Eleviv users have taken our easy, accurate survey prior to using the product, then again within 1–2 weeks after starting the product. The results are overwhelmingly convincing, showing significant increases in emotional well-being and overall vigor, and equally significant decreases in tension and fatigue.\*

## sound science

XanGo has partnered with leading nutritional biochemist Dr. Shawn Talbott, Ph.D., former Director of the University of Utah Nutrition Clinic, to bring this revolutionary new product to market. Dr. Talbott is a renowned expert in human performance, stress physiology and using natural products to enhance well-being.

Several human clinical trials have been conducted on the ingredients and formulation in Eleviv. The research has shown significant improvement in all measures of vigor including energy, alertness and cheerfulness.\* These studies have been presented at eight top scientific conferences around the world. A number of published studies also support the benefits of each active ingredient.
