

XANGO® RESERVE

THE REFINED MANGOSTEEN EXPERIENCE

In 2002 the founders of XANGO launched the world's first global mangosteen product: XANGO® Juice. Establishing a new standard for the wellness industry XANGO Juice gave birth to a groundbreaking new category and a record-setting company. The uncompromising quality, sound science, sensational flavor and authoritative brand have made XANGO the only name of consequence in mangosteen nutrition.

Eight years later the XANGO Founders unveiled, once again, the fruit of their labors: the elegant, definitive culmination of the mangosteen's complexities—a product with a permanent place in their personal reserve. That's why we call it XANGO® Reserve.

XANGO Reserve offers a truly uncommon experience as the premium partner to the world's most popular mangosteen product—XANGO Juice. Drawing on those years of experience, the Founders borrowed from their signature formula and reinvented it. Even the most sophisticated palate will appreciate Reserve's nuanced aroma and taste. Bright without being overly sweet, its unique flavor is incredibly smooth and complex.

Reserve is perfect for special occasions. Break it out for a celebration, share a bottle with someone extra-special, or serve it to impress an important prospect. When you really want to make a statement, XANGO Reserve is sure to allure.

While supported by the same science and research as the original XANGO Juice, Reserve's higher mangosteen concentration naturally offers an even greater amount of phytonutrients. The enhanced formula creates a new flavor, but the wellness delivered by mangosteen's natural compounds remains in force. Think of Reserve as greatness refined.
