# 3sixty5™

## WELLNESS EXTENDED

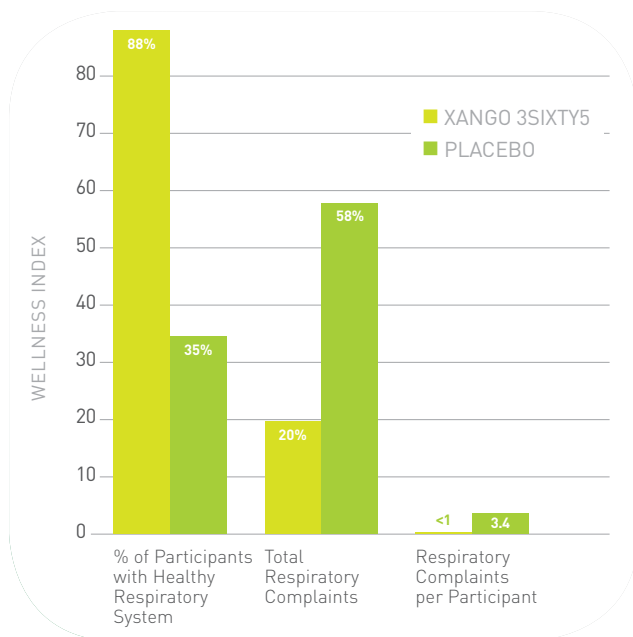

### DEFEND YOUR DAY

With leading nutritional science at its heart, XANGO 3SIXTY5™ with Active Defense Complex™ offers a balanced solution to your daily wellness. Typical vitamins and nutritional supplements can help to maintain your health, yet they may struggle to prevent seasonal downturns, leaving your body vulnerable right when it needs the most support. The 3SIXTY5 Active Defense Complex includes a uniquely protective blend of bioflavonoids, resveratrol, tocotrienols and Primactive™ that actively shields your body from harmful microorganisms, environmental impurities and oxidative stress.\* Now you can be well and stay well.

### THE NEED FOR NUTRITION

It's practically unanimous: Health professionals recommend taking multivitamin and mineral supplements every day. But when spending your money on a supplement, it's important to pay for potency and proven results: You want to take something that your body will actually use. XANGO 3SIXTY5 offers the right amounts of vital nutrients for optimal absorption. Many high-priced nutritional supplements provide mega doses with more nutrition than your body can possibly absorb, Feeding on faulty consumer logic: "If 100% RDA is good, then 1,000% RDA must be even better!" Science has shown us that more isn't always better and there is such a thing as overkill. XANGO 3SIXTY5's vitamin matrix is paired with naturally sourced nutrients and chelated minerals to produce a well-rounded blend that your body can use and absorb.

### PROVEN RESULTS

In a 4-week placebo-controlled human clinical study, XANGO 3SIXTY5 was shown to help maintain a healthy respiratory system in participants with lowered natural defense mechanism function.

The study demonstrated a significant extension of the participants' overall wellness when compared to the placebo group. 88% of XANGO 3SIXTY5 subjects maintained a healthy respiratory system, as opposed to only 35% of the placebo group.

In addition, multiple studies have been conducted on XANGO 3SIXTY5's ingredients. The research clearly shows an ability for these ingredients to actively protect us from occasional downturns, provide powerful antioxidant support and enhance cellular protection.\* Most exciting were the clinical results on Active Defense Complex, specifically Primactive™, in its ability to enhance the body's natural defense system— this helps us stay well longer.

Take on your life one day at a time with the daily nutrition and active defense of XANGO 3SIXTY5. With your body's natural defenses fueled and your nutrient needs met, your wellness can continue uninterrupted. And you can too.
