

XANGO® JUICE & XANGO® RESERVE

TWIN PILLARS OF MANGOSTEEN GREATNESS

In 2002 the founders of XANGO launched the world's first global mangosteen product: XANGO® Juice. Establishing a new standard for the wellness industry XANGO Juice gave birth to a groundbreaking new category and a record-setting company. Here's why:

In Asia, the mangosteen has been used for centuries as a traditional preparation, from topical applications to teas. So powerful that mangosteen was respectfully called the Queen of Fruits; today scientists refer to it as *Garcinia mangostana*. Whatever you call it, XANGO Juice harnesses the power of the mangosteen fruit to deliver a unique payload of xanthones and phytonutrients in the most delicious, easily absorbed package possible. Today millions of people around the world have enjoyed the many benefits of XANGO Juice.

Eight years after the introduction of XANGO Juice, the Founders unveiled their handcrafted premium edition mangosteen beverage called XANGO® Reserve. Perfect for special occasions, Reserve takes the exceptional flavor of the original category creator and refines it, producing an incredibly smooth and elegant mangosteen experience suited to the most sophisticated palates.

What makes XANGO Juice and XANGO Reserve so special? The uncompromising quality, sound science, sensational flavor and authoritative brand have made XANGO the only name of consequence in mangosteen nutrition. And after nearly a decade, XANGO still defines the category.

SCIENCE & RESEARCH

Substantiated by an 8-week clinical study†, XANGO Juice demonstrated an ability to reduce CRP levels, an indicator of cardiovascular health, while a placebo group actually experienced a small increase in CRP levels.* Numerous other scientific studies have been and are currently being conducted on the mangosteen and XANGO Juice. In fact, the world-renowned Mayo Clinic is using XANGO Juice in an independent, multi-year study to measure the long-term benefits of the mangosteen.
